The Royal College of Advanced Research

The Royal College Of Advanced Research of the Principality of Hutt River was formed by HRH Prince Leonard in order to advance the research and teachings into the fields of Spiritual in relation to pure Physics without relationship to any individual religious doctrine.

This came about after HRH Prince Leonard was asked to write on the numbers in the Book Of Revelation, found in the Christian Bible, because he was considered to be very good with numbers.

Although he was not a Bible reader, he set about fulfilling that request and became intrigued with the challenges which arose out of such research and basically existed as questions still baffling mankind.

Others became interested in his research and wanted to be involved, so he founded "The Royal College Of Advanced Research", originally using "mathematical probabilities" then "Gematria".

The Energy of Creation

The Energy of Creation **142857** is within all that exists.

There are three of Nature's Constants; NC26, NC27 and NC28, the latter is directly related to the Energy of Creation.

Scientists have for many years postulated on what constitutes that of space in respect of an ether or energy.

Similarly millions of people of many countries postulate on the "Life Force" or "Life Energy". It is known by various names:-

"Hindus"	call it	"Prana"
"Tibetans"	call it	"Tumo"
"Chinese"	call it	"Chi"
"American Indians"	call it	"The Great Spirit"

In the books, "The Holistic Nature of Reality" and "Reality of Nature's Revelations", I have given the reality of the afore in great depth of detail never previously been achieved. This has in the main been possible by having found in Nature three mathematical constants; NC26, NC27 and NC28.

NC28 enabled the finding of nature's, "Creation", energy of **142857** to exist in relation to every "Fibonacci" series steps. It is now realized that the Energy of **142857** actually creates the Fibonacci effect of all living matter. From the simple "Reciprocal Energy Force thereof gives the effect of, 1.3./4.6.10.16.26. (NC26).

In fact the energy of "Creation" is within everything, as well as all living matter.

Whilst it is the energy of "Creation" it is also that known as "Life Force" or "Life Energy" by countless millions of people.

We may look at the various names of the "Life Force" and "Life Energy" and obtain a mathematical value by the usage of Gematria, and compare also the resolutions in relation to, "Life Force" and "Life Energy".

“Life Force”	=	79 ÷ NC28	=	2.82	<u>142857...</u>
“Life Energy”	=	106 ÷ NC28	=	3.78857	<u>142857...</u>
“Prana”	=	50 ÷ NC28	=	1.7857	<u>142857...</u>
“Chi”	=	20 ÷ NC28	=	0.7	<u>142857...</u>
“Tumo”	=	69 ÷ NC28	=	2.4642857	<u>142857...</u>
“The Great Spirit”	=	175 ÷ NC28	=	6.25/ 0.2232	<u>142857...</u>
“God”	=	26 ÷ NC28	=	0.92857	<u>142857...</u>

Then of course the “Christians” and “Muslims” may consider that the afore is not related to them, that I do not understand them. Let us thence have a look, and we then find:-

“Christian”	=	101 ÷ NC28	=	3.607	<u>142857...</u>
“Muslim”	=	87 ÷ NC28	=	3.107	<u>142857...</u>

The relationship of the energy of “Creation” is in all people including:-

“JESUS”	=	74 ÷ NC28	=	2.642857	<u>142857...</u>
“MOHAMMAD”	=	68 ÷ NC28	=	2.42857	<u>142857...</u>
“BUDDHA”	=	40 ÷ NC28	=	<u>1.42857</u>	<u>142857...</u>

General examples of the Creation Code of 142857 in all that exists:

Man	28	÷	28	=	1/ 0.357	142857...
Cow	41	÷	28	=	1.4642857	142857...
Tree	48	÷	28	=	1.7	142857...
Horse	65	÷	28	=	2.32	142857...
Earth	52	÷	28	=	1.857	142857...
Sun	54	÷	28	=	1.92857	142857...
Planet	68	÷	28	=	2.42857	142857...
Universe	113	÷	28	=	4.0357	142857...
Water	67	÷	28	=	2.392857	142857...
Food	40	÷	28	=	1.42857	142857...

The energy creation code repeats into infinity for all that exists, including you.

“Sphinx”	=	90 ÷ NC28	=	3.2	<u>142857...</u>
“Pyramid”	=	86 ÷ NC28	=	3.07	<u>142857...</u>

The PL/Fibonacci Series

The PL/Fibonacci series begins from the “Body Cell”

Pole Values $13.26.39 = 78$ and all contain **142857** respectively

PL/Fibonacci begins with:

$$\begin{aligned}\text{“Body Cell” } 78 \div \text{NC28} &= 2.7857\mathbf{142857}\dots \\ 156 \div \text{NC28} &= 5.57\mathbf{142857}\dots \\ 234 \div \text{NC28} &= 8.357\mathbf{142857}\dots\end{aligned}$$

The resolution of the “Life Force” and “Life Energy” is shown to be of the energy of “Creation”, **142857**.

$$\text{“Life”} = 32 \div \text{NC28} = 1.\mathbf{142857\ 142857}\dots$$

$$\text{Thence: “Golden Mean”} = 90 \div \text{NC28} = 3.2\mathbf{142857}\dots$$

The Series used by Leonardo Fibonacci is a product of the Energy of Creation **142857** (NC27) which is a product of NC28 and is also linked to NC26.

Reciprocal Mathematics

In the diagram (opposite page) you can see:-

(1.3./4.6.10.16.26 all respectively contain **142857**).

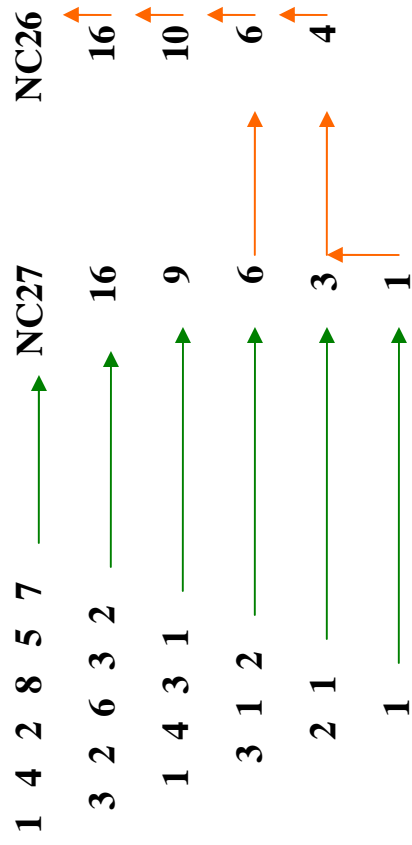

$$\text{NC28} + \text{NC27} + \text{NC26} = 81 \div \text{NC26} = 3.1\mathbf{153846\ 153846}$$

$$\text{NC28} + \text{NC27} = 55 \div \text{NC26} = 2.1\mathbf{153846\ 153846}\dots$$

$$\text{Spiritual Energy} = \mathbf{153846}$$

Reciprocal Mathematics Fibonacci Series Creation

Seventh Heaven

Many religious doctrines incorporate a relationship to, the “Seventh Heaven”.

Seven has a prominence in many other matters and factors.

In “The Holistic Nature of Reality”, page 12 and pages 55-56, the diagram which is the formula of the Creation it should be noted, (page 78).

$$\begin{aligned}\text{Pole Value } 13 \times 7 &= \text{“Spirit” } 91 \\ 13 \times 6 &= \text{“Body Cell” } 78\end{aligned}$$

The Ratio of 7 to NC28 is 4

$$\begin{aligned}4 \div 7 &= 0.57\mathbf{142857...} \\ 4 \div 28 &= 0.\mathbf{142857...} \\ 1 \div 7 &= 0.\mathbf{142857...}\end{aligned}$$

$$\mathbf{142857} \times 4 = \underline{57} \mathbf{1428}. \text{ Digital position altered.}$$

$$\begin{aligned}\text{“Seventh Heaven”} &= 148 \div 7 = 21.\mathbf{142857...} \\ \text{“Seventh Heaven”} &= 148 \div 28 = \mathbf{5.2857} \mathbf{142857...}\end{aligned}$$

Therefore Seven does relate to the Energy of Creation within everything that exists, in a basic relation.

Nature's Constants

There are three important Mathematical Constants of Nature, being NC26, NC27 and NC28.

NC26 negative, NC27 no charge, NC28 positive.

Conclusion

In extending the Nature's Constants of NC26, NC27, NC28 into cyclic numbers of periods of six, which respectively contain the value of 27 (NC27), the bonding of the energies are extremely fascinating in that which emerges as a product of Nature.

We have now seen that others have seen the **142857** and have considered this to be a key of a Biblic Code in the absence of the reality.

Whilst there is an element of correct assumption ther of, it is more precisely the mathematical code of the Energy of Creation, just as **153846** is the mathematical code of Spirit.

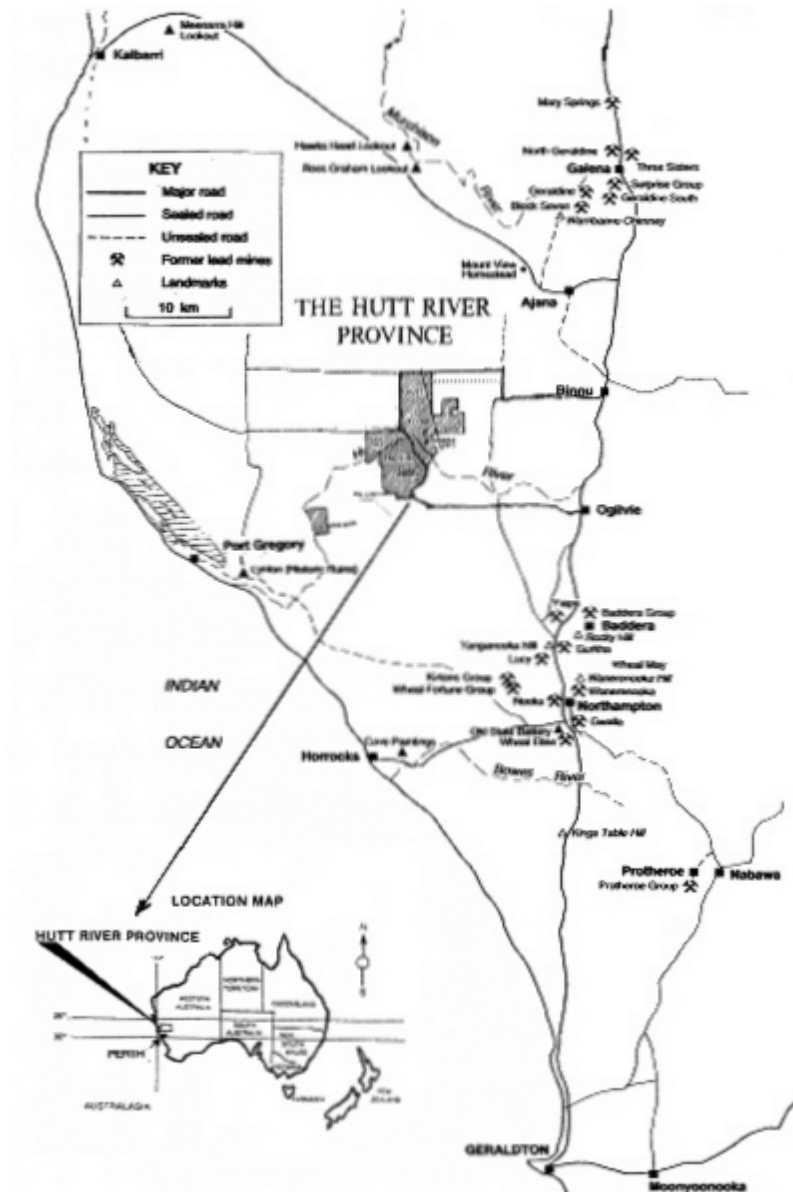

From these we have the Nature's Constant of NC27 which locks the energies into one.

These combine in various ways through the processes of nature in its evolution by creation. The ability to understand and interpret what the numbers stand for is an engrossing area of great fascination to some who seek and search for the truth of nature.

Some of which we give you here and also in the books:

“The Holistic Nature of Reality”
and
“Reality of Nature's Revelations”.
